

Reseller Bulletin

30 April 2025

End of Manufacture Announcement for all Sedco products

Dear Reseller,

Austco, the owner of the Sedco Nurse Call Systems, formally announces the end of manufacture and end of life (EOL) for Sedco products. This is consistent with the messaging we have been providing over the last number of years as we sold spare parts to you from this business.

Austco will honor any orders in our possession as long as it is economically viable to do so. Austco has stock available to service client needs. The current inventory list is appended to this notification.

Austco has provided the formal upgrade pathway process as part of this announcement – see page 2.

Table 1. End-of-Life Milestones and dates Sedco Nurse Call

Milestone	Definition	Date
End-of-Manufacture Date	The date at which Austco will no longer manufacture new Sedco products.	30 April 2025
End-of-Sale of Sedco Software	The last date that Austco will sell any new software licences.	30 April 2025
End-of-Sale Date	The last date to order existing Sedco products currently held in Austco warehouses. through Austco mechanisms.	31 August 2025 (or while supplies last)
Last Ship Date	The last-possible ship date that can be requested of Austco.	31 September 2025 (or while supplies last)
Last Date of Support	The last date to receive applicable service and support for the product as entitled by active service contracts or by warranty terms and conditions. After this date, all support services for the product are unavailable, and the product becomes obsolete. Warranty duration is based on product ship dates; refer to warranty terms and conditions for details.	31 October 2025

Just a reminder that all Product End of Sale / End of Life Announcements can be easily accessed here: <http://www.austco.com/product-end-of-sale-end-of-life-list/>
If you would like more information, please do not hesitate to contact your local Austco representative.

Yours sincerely,

The Austco Team

Recommended Upgrade Path:

1. Integration with Austco Tacera:

- Facilities currently using Sedco systems are advised to upgrade to the Austco Tacera Nurse Call System.
- Austco offers a seamless integration via the Austco MCP, designed to connect Sedco systems with Tacera for a unified operational experience. We have developed this interface to enable your existing Sedco equipment to be retained until such time that budget or care model requires, but allowing the facility to immediately have access to current generation Austco services such as Pulse reporting, dashboards, and ways to accurately capture care minutes based on care teams profession. The legacy Sedco system with MCP integration will allow the nurse call system to operate as a single platform with no performance limitations.

2. Free Integration Engine:

- **Austco will provide the MCP free of charge** to all registered Sedco users transitioning to the Tacera system.

3. Gradual Migration Program:

- Authorized Austco resellers will assist in a phased migration, allowing facilities to invest gradually and avoid immediate costs.

4. Avoid Third-Party Products:

- Austco strongly advises against using third-party systems to extend the life of Sedco products, emphasizing the critical nature of nurse call systems for patient safety.

Conclusion: To maintain operational integrity and ensure compliance with life safety standards, facilities are encouraged to follow Austco's recommended upgrade path promptly.
